## Summary

---

With over 6 years of comprehensive experience in mobile development, I've dedicated the past **3 years** to mastering the Flutter framework. During this time, I've refined my skills in architecting, designing, and implementing cutting-edge software programs, particularly for startups seeking to bring their online visions to life. I bring a seasoned perspective to every project, with proficiency spanning both Native and Cross Platform development, ensuring versatile solutions tailored to diverse needs. Understanding the importance of adaptability and collaboration, I prioritize these qualities in delivering exceptional results. My track record of developing 25+ mobile apps underscores my commitment to excellence and innovation in the mobile development landscape.

## Skills

---

Flutter Framework, Android SDK, iOS SDK, Dart, Java, Kotlin, Swift, Javascript, Unit testing, Integration testing, Firebase, AWS, Git, CI/CD, Jira.

## Experience

---

**[ScoptVision](#) | Senior Software Engineer (Remote)** **Jan 2023 - Present (1.5 Years)**

- Actively working as an IC for [ScoptVision](#)- **Energy Management System**: Implemented the project from scratch using Flutter(Web,Android,iOS), reviewing code, designing git flows, unit testing, managing and mentoring a team of 4 members.
- Trained and supervised new employees and provided technical support to clients and coworkers.
- Configured code quality tools (Linter and Dart Analyzer) to boost code quality
- Implemented REST APIs with AWS
- Implemented CodeMagic for CI/CD, automating building, testing, and distributing

**[SparkEye Tech](#) | Software Engineer - Mobile** **Mar 2018 - Dec 2022 (4.5 Years)**

- Worked on a couple of Hybrid and Native projects.
- Migrated Native projects to Flutter
- [VantageMDM](#)- **Mobile Device Management**:Worked as a Software Engineer with active involvement in coding and implementation.My key responsibilities included researching, developing designs, prototyping and implementing features for the Android platform.
- [SecureTeen](#): **Parental Control**: Collaboration with teams to Refine, Design & Ship new features. Creating applications that interact with backends. UI design implementation using Constraints Layouts. Developing application design based on MVC & MVVM
- Lead a team of 3 developers

## Education

---

[IUB](#) | Bachelor of Computer Science

**October 2011 - June 2015**
